

1. Climate change is a major and growing threat to wild species, wild spaces and human health. Will your party commit to increasing climate emission reduction targets so that they meet Canada's obligations under the Paris Climate Agreement and are in line with preventing a global temperature rise of more than 1.5 degrees Celsius?

2. Is your party committed to protecting at least 17 percent of Canada's lands and inland waters by 2020, in accordance with our international obligations as a party to the United Nations Convention on Biological Diversity?

3. Next year, Canada and other parties to the United Nations Convention on Biological Diversity will be renegotiating a new global target for protected areas. Will your party champion a global target of protecting at least 30 percent of land, freshwater and ocean by 2030 and adopt these in Canada?

4. Ontario has gutted its Endangered Species Act. Will your party protect Canada's at-risk plants and animals by using the federal Species at Risk Act to step in where provinces are failing to protect species facing imminent threats?

5. Is your party committed to operating in a manner that is consistent with Canada's commitment to implement the United Nations Declaration on the Rights of Indigenous Peoples as well as the "calls to action" of the Truth and Reconciliation Commission?

6. Neonicotinoid pesticides are known to negatively impact pollinators, causing direct mortality and impairing navigation, learning, food collection, resistance to disease and reproduction. Will your party implement an immediate ban on all neonicotinoid pesticides, and support farmers to transition to safer alternatives?

7. Almost all Canadians believe that Canada should recognize the legal right to a healthy environment, as is the case in more than 150 countries worldwide. The right to a healthy environment results in stronger environmental laws, better enforcement of those laws and a greater public role in environmental decision-making. Will you introduce legislation to create a federal Environmental Bill of Rights?
